

# movelpartes

Componentes  
para a Indústria  
do Mobiliário

Movelpartes is a company of the Sonae Indústria Group located in Vilela, Paredes, circa 25km away from Porto. The company operates in the furniture industry sector and manufactures products and components for furniture parts. Movelpartes integrates a worldwide reference group and has extensive experience in the production of furniture kits, having demonstrated great flexibility in adapting its products to customer needs.

Movelpartes has a production area of 12,000m<sup>2</sup> and, by mid of last year, the company had two production lines with an average production capacity of approximately 45,000 units per week. In the second half of 2017, a new edging and drilling line was installed, with an investment of 2.8 million euros and will allow the company to more than duplicate its production capacity, to improve quality of production and to significantly reduce the waste level and the energy and maintenance costs. With this new line, which is equipped with state-of-the-art technology, Movelpartes will be capable of delivering the highest quality and standards of excellence, providing for the specific needs of its customers, whilst becoming more competitive in its respective markets.

As a result of the recent investment in the new edging line, Movelpartes expects to strengthen its position in the Portuguese market of components for furniture industry and become a leader in this industry segment. In terms of international markets, Movelpartes will target particularly Spain, France and the United Kingdom due to their geographical proximity to Portugal and ability to maximise the synergies of the economic group in which Movelpartes operates. As a result, we are confident that the company will achieve growth and will find new business opportunities in the sector.

**At the end of 2017, Movelpartes renewed its visual identity, through a rebranding project that introduced a new company logo and a new website in order to reinforce and reflect the company's character: solid, global and close to its stakeholders.**
